Jonas Albrecht

Frontend developer who keeps wandering into the UX meetings.

jonas.albrecht@example.com · Leipzig, Germany · jonas-albrecht.introfio.com

SUMMARY

Four years of React and TypeScript at an agency in Leipzig. Lately I spend more time with sticky notes and usability tests than with webpack configs, and I like it. Looking for a role where I can do both.

EXPERIENCE

Frontend Developer · Werkhaus Digital — 2022 – Present
Leipzig

Agency work for public-sector and mid-size clients. React, TypeScript, a lot of forms. Started running usability tests in 2024 because nobody else would.

Working student, web development · Elsterflut Media — 2020 – 2022
Leipzig

WordPress themes, newsletter templates, and my first real JavaScript.

EDUCATION

B.Sc. Media Informatics — 2018 – 2022
Pleiße University of Applied Sciences, Leipzig

Thesis on how older adults use municipal websites. Got a 1.7, which my mother still mentions.

Certificate, UX Research Foundations — 2024
Online course

PROJECTS

Booking flow for a city library network — 2025

Rebuilt the room and equipment booking for eleven library branches. I ran the usability tests myself, mostly with retired people who book the sewing machines.

React, TypeScript, Usability testing, Accessibility

Tram delay notifier — 2024

A weekend project that sends me a push message when my tram line is more than four minutes late. Three friends use it now. One of them complains about the colours.

Next.js, PWA, Web Push

Design system for a solar installer — 2023

Twenty-six components in Storybook, from the button up. The first time I had to argue with a designer about focus states, and the first time I won.

Storybook, React, CSS

SKILLS

React · TypeScript · Next.js · CSS · Accessibility · Figma · Usability testing · Storybook · Playwright
